Choosing a Grant Program

After clicking on the Apply link you will have the ability to choose a grant program to apply for. Each grant program will have a brief description of the grant or who qualifies for the grant. Read these descriptions thoroughly before applying.

- 1) Read through the grant program description to decide if you qualify to apply for the grant.
 - a. If the foundation has sent you an access code enter it in the Access Code box in the upper right corner and click "Enter Code." This will allow only the private grant program to appear.
- 2) After the grant program appears, click it to start filling out the first form.

- a. Grant Programs have the ability for multiple forms. Some grant programs can have the applicant submit 3 forms to the foundation before a decision is made. Each form will be filled out and submitted to the foundation. After it is deemed complete, the foundation will approve you to move on to the next form.

Filling out the First Form

After agreeing to the applicant instructions you will be sent to the first form in the grant program. Enter all the applicable information then Save as Draft or Submit the form to the foundation.

- 1) Start filling out the questions on the form, paying close attention to the instructions and limitations on each question.
 - a. Certain types of questions have limitations set by the foundations. Text questions will have a character limit which only allows you to type or paste a certain amount of text in each question. Another limit will be on the file upload questions. This limit will be in Mega Bytes (MB). The size of file you are uploading must be under the amount of MB's allowed on the question.
- 2) Applicants can save as draft and come back to the form after any given time to complete it. The foundation will not check for completeness until the form is submitted.
